WORK EXPERIENCE

Full Stack Internship (MERN) | Swadhin IT Solutions

Aug 2025 – Jan 2026

- Completed a 6-month Full Stack Development Internship at Swadhin IT Solutions, gaining hands-on experience in the MERN Stack (MongoDB, Express.js, React.js, Node.js), along with REST APIs, Git, and database management.
- Developed and maintained responsive web applications, implemented frontend and backend features, integrated databases and APIs, and collaborated with the development team to deliver scalable and user-friendly solutions.

PROJECTS

Student AI Helper – AI Powered Doubt Resolution Platform

React · PHP Rest API · MySQL

Built an AI-driven web app that helps students get instant, contextual answers and code explanations. Implemented secure REST API integration and optimized database queries for faster response time and smooth user experience.

Employee Leave Management System (ELMS)

[React 18](#) · [Node.js](#) · [MySQL](#)

Full-stack Employee Leave Management System using HTML/CSS, Node.js, and MySQL to handle leave requests, approvals, and balance tracking with role-based access control. Developed responsive dashboards and integrated real-time leave status updates to improve admin and employee workflow efficiency.

Subtrack – Subscription Tracking Platform

[React Native \(Expo\)](#) · [React](#) · [Firebase](#) · [TypeScript](#)

Built a subscription tracking platform with a mobile app for users and an admin dashboard for managing subscriptions, payments, reminders, and analytics. Developed a Firebase-powered backend using Firestore, Authentication, Cloud Functions, Storage, and FCM for real-time updates and automated notifications.

CERTIFICATES

MERN Full Stack Internship (Swadhin IT Solutions)

[2025–2026](#)

Introduction to Data Analyst

[2026](#)

Learned about the data ecosystem, including the process and data basics.

Core Java

Certified in Core Java programming with hands-on expertise in OOP, exception handling, collections, and multithreading.
